

memcpy

get_cpu_info

```
graph LR; A[get_cpu_info] --> B[memcpy]
```

The diagram consists of two rectangular boxes. The box on the left is shaded gray and contains the text 'memcpy'. The box on the right is white and contains the text 'get_cpu_info'. A dark blue arrow points from the right side of the 'get_cpu_info' box to the left side of the 'memcpy' box, indicating a function call or data flow from 'get_cpu_info' to 'memcpy'.
